TO WHOM IT MAY CONCERN

Georgi Trendafiloff is amongst the most promising artists of his generation. An interpreter of a large number of pieces both classical and contemporary, he is an exceptionally gifted man with various interests and unique artistic presence. Possessing a vivid individual approach he brings the internally grounded touch to the opuses and composers whom he presents. The proportions of his talent envelop an astonishingly wide range of keyboard mastery, delicate lyrical symbolism, majestic fortissimos and spectacular equanimity on the stage.

He is proficient in the fields of piano compositions, in all their possible ramifications. It comes as no surprise after all the years of dedication to composing, which in turn increase his pedagogical and artistic value even further.

His repertoire includes fundamental baroque and classical pieces, as well as compositions from the romantic period and the 20th century.

A handwritten signature in blue ink, appearing to read 'Yovcho Krushev', with a large, stylized flourish above the name.
